EXPERIENCE

Freelance Software Engineer

May, 2024 – Present

Driven II Develop – Real Estate Application Development

- Engaged in the development of a robust real estate application within an AGILE framework, utilizing React Native, Next.js, and PostgreSQL.
- **Maintained continuous communication with the UI/UX team to ensure seamless integration and user experience.**

Global NGO Executive Committee – E-Waste Management Solution Development

- Design and implement user-friendly interfaces using React for solutions targeting e-waste.
- Integrate APIs and third-party services to enhance functionality and user experience.
- Contribute to brainstorming sessions and project planning, leading the frontend development efforts.

Springboard, Software Engineer Trainee

Mar, 2023 – Apr, 2024

- Completed a comprehensive curriculum covering key topics in software engineering, including algorithms, data structures, object-oriented programming, and software design principles.
- **Improved the results of complex projects through effective collaboration with peers and mentors, refining coding practices and demonstrating robust problem-solving skills.**

Wynn Resorts, Corporate Investigator

Aug, 2023 – Present

- Conduct thorough investigations, ascertain conclusions, and maintain records and processes for auditing/legal purposes.
- Document incidents and events into investigative reports, ensuring those reports were completed accurately and in a timely manner.
- Work with guest claims/risk management to mitigate liability to the company.

City of Henderson, Police Officer

Jul, 2021 – Dec, 2022

- Performed rescue functions at accidents, emergencies, and disasters by directing traffic and administering emergency medical aid.
- Conducted criminal investigations by securing crime scenes, gathering evidence, and interviewing victims, witnesses, and suspects.
